T. MELENS, OREGON, MARCH 15.

Ma. McBarna is the first native Oreplan elected to the senate. He was the first and only native-born son to hold the office of secretary of state. Judge Bean, of the supreme court, is also a native Oregonian, born in 1854, the same year as Senator McBride, and in the same county-Yambill.

SERATOR MCBRIDE is the same affable George he has always been. Exalting him to the highest position

SLOWLY but most effectually does the mill of democracy grind, and not so very slowly either, for it has been but two years since that party grabbed the reins of this government, and have already succeeded in driving us clear out upon the billows of destitution. By another two years, when that party has reached the toll gate of pergatory, and dismounted from the governmental caravan, the wave of destruction will have reached such proportions that it will take many days for that party's successors to gnide the long procession back upon the plain of prosperity and hope.

Ir seems strange that farmers do not ere attention to fruit raising, pay more attention to the separate appearance that will keep until separate in pring. Apples are today retailing in Portland readily at \$2.50 per box, and not the best quality, either. At this season of the year apples always command a good price. THE United States government is today confronted with serious inter national difficulties. A few days ago a Spanish warship fired upon an American steamship, which will make trouble between this country and Spain. The killing of Italians by a mob in Colorado, while the famous Mafia case at New Orleans in 1892 is still fresh in the minds of the government at Rome, will renew the bitter feeling between these two countries. This, together with the serious wounding of the British purser, Bain, at New Mrs. Crie were up on the hill visiting Orleans recently, will, no doubt, give and it seemed good to see them again. the United States government all it can handle through the diplomatic service for some time to come. Frank Merrill came over from his mill Saturday to attend a council meeting and close up his reports for the school district. Frank is a faithful official, and believes that "what is worth doing at all is worth doing well."

Last Friday evening the literary club went out to the residence of Mr. and Mrs. W. H. Conyers, where a very The Arlington Record man is a great prophet. Rev. White moved into the new parsonage this week, though it is in rather unfinished condition as yet. The reverend gentleman is holding meetings at Mayger this week.

#### EFFECT OF FEE'S DECISION. An Unsatisfactory State of Affairs

Umatilia county had an addition to its abip of 1000 Indians on the 9th of the resent month, in consequence of a de fore. The effect, no doubt, if sustained by the higher courts, will be to remove all restrictions from them excepting in handling their lands, which were allotted under con-ditions. The Indian chiefs, who were unler arrest for resisting a United States officer, were immediately released and a coun-cil called at Young Chief's camp, 15 miles above the agency, of all Indians, to consider matters.
